

PUBLIC NOTICE

March 20, 2020

Citizens of Town of The Pas

Please refrain from flushing wipes, paper towel, rags etc. down your toilet. We understand under the circumstances these items are increasingly being used on a daily basis. They have the ability to cause an unnecessary strain on our waste water collection system. The Town of The Pas Engineering Department has plans in place to continue to provide critical utility services in any event. Your assistance with this request would allow us to provide those services without further issue.

We thank you for your compliance on this critical matter

Respectfully

Jennifer Early
Acting Chief Administrative Officer
Town of The Pas
